

SCALE REVIEW

1. Title of the Scale/Test
2. What does your Scale intend to do and the area it will measure?
3. How many (if any) Scales already exist in this area?
4. How is your Scale different from the existing ones?
5. What is the age group for your sample that you are targeting? Why do we need this scale for this particular age group?
6. What is the sample size you will be/have taken for the data analysis?
7. Which groups of people will get benefit from your scale?
8. What is the future prospect of your scale?
